PROFESSIONAL SUMMARY

Full-Stack Developer with 9+ years of experience designing, building, and maintaining enterprise web applications for banking, insurance, and retail clients. Hands-on across front-end and back-end engineering with HTML5, CSS3, JavaScript, Angular, PHP, MySQL, and REST API integration, plus deep Content Management System (CMS) experience in Drupal, WordPress, and Adobe Experience Manager (AEM). Led a 4-member team on a scheduled banking website programme, integrated secure payment gateways for insurance clients, and delivered AI and machine learning products including an AI chatbot and a face recognition module. Known for fast, high-quality delivery and clear communication across cross-functional Agile teams.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Angular 8+, TypeScript, Responsive Web Design, Cross-Browser Compatibility

Back-End: PHP, CodeIgniter, MySQL, REST API Integration, Payment Gateway Integration, Model-View-Controller (MVC) Architecture

CMS Platforms: Drupal, WordPress, Adobe Experience Manager (AEM), Joomla, Magento

Analytics and AI: Adobe Analytics, AI Chatbot Development, Machine Learning Face Recognition

Tools and Practices: Git, Version Control, Agile, Scrum, Jira, User Interface and User Experience (UI/UX) Design, Wireframing, Custom Theme Development, Web Performance Optimization

Leadership: Team Leadership, Stakeholder Communication, Strategic Planning, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Analyst - Digital Operations | Senior UI Executive Developer

Xerago, Chennai, India

Jun 2021 - Present

- Promoted from Senior UI Executive Developer to Analyst in the Digital Operations team, expanding scope from front-end delivery to end-to-end ownership across 6+ client engagements.
- Led a 4-member team delivering the Ujjivan Small Finance Bank website on Drupal, customizing modules and themes and shipping regular releases to meet banking operational requirements.
- Managed content authoring and publishing in Adobe Experience Manager (AEM) for Deutsche Bank, maintaining brand and compliance standards across every authored page.
- Integrated secure payment gateways and REST APIs for the TVS Insurance and Striyoga websites, enabling reliable online transactions and hardening backend service security.
- Architected and developed the Employee Portal Performance System single-handedly, integrating APIs to track productivity and building a points-based ranking engine that replaced manual evaluation.
- Delivered 3 product initiatives - Adobe Analytics Accelerator, CommandCenter (an AI chatbot for the CMS platform), and a machine learning face recognition module - within the company product portfolio.

Software Engineer - Web Developer

Geval6 Inc Pvt Ltd, Chennai, India

Aug 2019 - Jun 2021

- Developed Flex Community, an Angular 8 job-opportunity platform, implementing 3 role tiers - Admin, Moderator, and Member - with role-based access control.
- Built and maintained PHP and WordPress applications, delivering front-end components and back-end integrations across client projects.
- Translated UI/UX designs into responsive, cross-browser interfaces using Angular 8, jQuery, and Bootstrap.

PHP Web Developer

Webstix Design Pvt Ltd, Chennai, India

Jan 2017 - Jul 2019

- Developed and launched 15+ content websites and 5+ eCommerce sites for the projects and support team using WordPress, Joomla, Magento, and Drupal.
- Delivered Digital Checklist, an internal product built on CodeIgniter and the MVC framework, that removed paper-based sign-offs from the website delivery process.
- Built Hits and Misses, a quality assurance tracker that surfaced defects and improvement areas to project stakeholders.
- Owned UI/UX delivery from wireframes to final implementation across 20+ website builds, collaborating with designers and developers to keep deliverables on schedule.

KEY PROJECTS

- CII TechNext 2022, Future of Web 3.0: Built and launched the event website in under 12 hours using Bootstrap, JavaScript, and PHP, supporting an NFT launch by the Tamil Nadu State IT Minister.
- Investor AI and TrustPlutus: Redesigned and delivered 2 client websites on compressed timelines, earning client recognition for delivery speed.
- Matrimony Portal (Drupal): Developed custom modules and themes, and trained non-technical content managers on CMS workflows.
- embedUR (WordPress): Customized themes and plugins and built 3 custom extension layers - post types, taxonomies, and shortcodes - to extend site functionality.
